

OPTIONAL ACCESSORIES

REMOTE CONTROL

Our remote control with dimming and on-off capabilities offers more control to the Redilight Skyfixture. It can be used with a single light or synchronized for use with multiple lights.

DAY-NIGHT KIT

The Day-Night Kit gives your Redilight 24-hour capabilities by allowing you to choose between two power sources—solar and the grid. Use the sun's free energy through the day then continue to enjoy your Redilight by simply switching to the low voltage power supply at night.

LED LIGHT OPTIONS

6 watt Small Recessed Round Light (4.3 in)
*In kits of 2 or 4 lights

6 watt Small Recessed Square Light (4.3 in)
*In kits of 2 or 4 lights

12 watt Medium Recessed Round Light (8.6 in)

24 watt Recessed Round Light (13 in)

24 watt Recessed Square Light (13 in)

24 watt surface Mount Slimline Light (13 in)

48 watt Square Light (2ft x 2ft)
*Surface Mount or Recessed Kits Available

LIGHT FITTING DATA

Size	Lumens	Color Range
6 watt	600-700	Cool White - 5000K Warm White - 3000K
12 watt	1100-1200	Cool White - 5000K Warm White - 3000K
24 watt	2500-2600	Cool White - 5000K Warm White - 3000K
48 watt	3500-3800	Cool White - 5000K Warm White - 3000K

ABOUT

Redilight's solar-powered lighting system is the energy smart solution to brighten dark areas in the home or office. Redilight's innovative design acts as a skylight alternative that overcomes the challenges of building structures, difficult rooflines and multi level dwellings. Say goodbye to those large and unsightly roof penetrations which can often compromise the roof's integrity. Simply Mount the solar panel on the roof and run the interconnecting cable to the Redilight Skyfixture.

-IT'S THAT EASY

The Redilight system has many configuration options to suit almost any need. Multiple sizes of attractive fixtures make Redilight a versatile option.

FEATURES

Cost-effective: Solar power is an inexhaustible source of free energy.

Economical: If more than one light is required then simply install a larger solar panel.

Quality: Using only the highest quality componentry coupled with industry leading warranties, Redilight delivers years of trouble free lighting.

KIT ARRANGEMENTS

A Redilight kit comes complete with a solar panel, mounting brackets, interconnecting cable, and your chosen Skyfixture. Install a larger solar panel to power multiple lights or to allow for the addition of more lights in the future.

HOW IT WORKS

The Redilight solar panel converts energy from the sun, delivering low voltage power to your Redilight Skyfixture(s).

The light works on a sun-up sun-down effect with the brightness increasing as the sun rises during the day, then decreasing as the sun sets.

Want more light? Redilight's optional Day-Night Kit allows the Skyfixture to be switched between solar or low voltage grid power at any time for full powered light.
